

Comprehensive Python course for AI

Exercises 26

Deadline: 2023 18 January

Score: 500

A green rounded rectangular button with the text '2023 10 January' in white, located at the bottom center of the slide. There is also a green triangular decorative element in the bottom left corner.

Question 01 (MySql)

250

- ❖ **Develop a basic Library Management System using Python and MySQL. This system should handle the cataloging of books and the management of library users (members) and employees, without the complexity of tracking book borrowings and returns.**

User Management:

- Register new library members.
- Member login
- Show profile details.

Employee Management:

- Add new employees.
- Show employee details.

Book Management:

- Add new books to the library catalog.
- Update book information (author, publication year, genre).

Search Functionality:

- Enable searching for books by title, author, or genre.

Thanks

Good Luck!

Don't give up on your dreams 😊
